WE ARE BACK!

The North-East Washington Regulators are reopening in accordance to phase 3 guidelines (face masks optional) with Cowboy Action Shooting matches starting at 9:00 A.M. on Saturday July 4 and Sunday July 5 and will resume our normal schedule of monthly matches on the first full week-end of every month.

Commencing immediately after a Brief Safety Meeting and AGM report including award presentations, Ranger Six will get the action started and it is certain his scenarios will include the opportunity to have a go at our newest target addition.

Did You Know?

Tidbits to ponder courtesy of Ranger Six

A relatively new modification for the 66 & 73 Winchester rifle is the Lever Lock. This internal modification to rifles that have been short-stroked blocks unintentional opening of the action before the trigger is pulled, preventing a live round from being jacked out. This item is made of aluminum and SASS approved, with a cost of \$84.95 for the 66 model & \$79.95 for the 73 model. Comments on the SASS Wire in mid-summer of 2019 were not very positive due to the problems of how to intentionally remove live rounds & the process of clearing the rifle at the unloading table. For a demonstration of this product go to leverlocker.com.
