Did You Know?

Tidbits to ponder courtesy of Territorial Governor Ranger Six HATS Part 2

Something to consider is what is a cowboy hat? Many folks might think of the iconic cowboy hat as the Stetson. John Stetson began the Stetson Hat Company in 1865 and presented the "Boss of the Plains" hat to the Old West and this style is still in production. By looking at photographs of the cowboy era, many cowboys are seen wearing other types of headgear. The Derby, or sometimes called the Bowler, was a very commonly seen style and was often preferred because the hat stayed on in windy conditions. Wool caps, sombreros and military hats left over from the Civil War also are seen in old pictures.

Have you ever wondered what a 10 Gallon hat is? The 10 Gallon hat gets its name from the Spanish word "Galon", not because it could hold 10 gallons of water. Galon means braid and many Spanish hats had multiple braids on it. One with 10 braids was a 10 Galon hat.

Cowboy custom is to turn the hat upside down when placing on a flat surface. This allows the hat to air out and prevents the rolled or up-turned brim to flatten. Another reason is that cowboy superstition says that the cowboy's luck will run out of the hat if placed right side up, and never ever place a hat on a bed.
