SEPTEMBER 2026 MONTHLY NEWSLETTER

RICOCHET JUNCTION comes alive with Cowboy Action Shooting Matches on the first weekend (Saturday & Sunday) of the month and the fun begins 9:00A.M.

The next scheduled Monthly Matches will be October 3 & 4 ,2026 in conjunction with the SASS Washington State Black Powder Championship match.

Just a Reminder

The October shooting weekend for Ricochet Junction is a full one with two events, the SSS Washington State Black Powder Championship Match and The North-East Washington Regulators Monthly Cowboy Action Shooting Match, both happening on the same range at the same time.

The SASS Black Powder Championship Match will proceed over October 2,3 & 4 as advertised.

Cowboy Action Shooters **not entering the championship match** are invited to participate in the full weekend of events or for 1 or 2 days of shooting over Saturday& Sunday as they would normally do for a monthly Cowboy Action Shooting Match.

Saturday and Sunday, the 3rd & 4th, all shooters will be shooting the same scenarios with the Black Powder Championship competitors on their posse and all others on a separate posse.

Regarding the OCTOBERS MONTHLY MATCH at RICOCHET JUNCTION form. It is not mandatory for **Monthly Match Shooters** to submit this form, however, if the intention is to participate in the full weekend of events it would be greatly appreciated **Especially for planning on how many to expect for Dinner.**

Hopefully this helps with the understanding of how it all is happening at the same time. If questions remain contact Match Director Fast Azz Festus.

SEPTEMBER 2026 MONTHLY NEWSLETTER

Did You Know?

Courtesy of Ranger Six

Next month the NEW Regulators will host the Washington State Black Powder Championship of Cowboy Action Shooting, and this brings to mind some aspects of black powder related to modern times.

Did you know that today, boxes of shotgun shells still use the antiquated method of listing drams as a measure of the powder charge in a shotgun shell, representing the equivalent of black powder in drams avoirdupois. This is seen as 2 1/2, 2 3/4 or 3 DR.EQ and higher. In a 12-gauge shell, 1 1/8th oz of shot with a 2 3/4 DR.EQ will have a velocity of 1145 fps. With a DR.EQ of 3 1/4 the velocity rises to 1255 fps. A charge of 1 1/2 oz of shot over a 3 3/4 DR.EQ load will give a velocity of 1260 fps. With black powder, 1 dram equals 27.343 grains.

Dram can also be used informally to mean a small amount of liquor. In the UK a dram is equivalent to 25 ml and in Scotland 35 ml.
